

Hungry Headlights

What do we need the trees for?

Nothing!

Let's chop'em down
And sell'em to the man

What do we need clean water for?

Nothing

More water will fall
When it rains

What do we need clean air for?

Nothing

Evolution will give us
All we need to breathe

What do we need this earth for?

Nothing

Wal-Mart gives us
Everything we need

We rape the world to make a dollar

We're e the pimps of mother earth

While she provides for us

We treat her like a whore that has no worth.

Now we're feeding our wheat and corn and food to our cars

As if no one in the world is starving

But hungry headlights

Trump hungry eyes

On this road to hell we're driving
