

The Astronaut

Maybe I'll be a firefighter
Maybe I'll be a clown
Maybe I'll be a pyromaniac
Who likes to burn things down?

(Chorus)

But today I'm an astronaut
And I'm flying to the stars
Some things can't be taught
We must discover for ourselves

(2nd & 3rd only)

I'll travel at the speed of light
And make the universe slow down.
Prove all our theories wrong or right
And not tell anyone (3X) what I've found.

Maybe I'll be a scientist
And study the genome
And if my research get too tough
I'll make myself a clone

Chorus

Maybe I'll work in a coffee shop
And help everyone wake up
Maybe I'll be an anesthesiologist
Or maybe I'll drive a truck

Chorus
